'Mapping a Woke-Free Future' Conference Register Today!

Americans overwhelmingly rejected wokeness and voted for common sense and promised positive changes in the November 2024 election. They understand there is a war against America's children, and they want it to stop. Child Protection League (CPL) believes that this historic election represents a massive cultural shift and incredible opportunity to make it stop. But, stopping it will depend upon activists like you!

Therefore, on Saturday, January 25, 2025 from 9am-2pm CST, CPL is hosting an important online conference to help equip everyone to do this. It's called "Mapping a Woke-Free Future" and features two powerful speakers; Xi Van Fleet a survivor of Mao's Cultural Revolution and author of *Mao's America: A Survivor's Warning*, and Joy Pullmann, Executive Editor of *The Federalist* and author of *False Flag: Why Queer Politics Mean the End of America*. Find out more and register by clicking below.

 - 9. **Reprioritize global religious freedom.** All Christians are in danger when genocidal actions are allowed to continue without the US using its influence to bring it to an end. Put nations like Nigeria back on the religious freedom watch list
